

Parking Details

Our patient parking is located in the building directly under our dental office.

To access the parking

- You must go into the alley behind the building and look for the white parkade door.
- Pull part way down the ramp towards the door.
- Wait as it takes a few moments to open.
- Once you enter the parking area you will see our 6 parking stalls right at the bottom of the ramp. They are marked Solace Dental Care.

We ask that the parking is used respectfully only during your dental visit as we do have other patients needing parking before and after your appointment time.
